WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

RIM-LESS TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design, rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

WASHBASIN FORMS

Washbasins can be used with a pedestal as well as being wall-hung. Basins suitable for use with a counter top can be fitted in three alternative ways:

FISCHER

A simple, elegant installation system for use with wall-hung WCs. The fixings are hidden from sight by the use of internal ABS sleeves, creating a clean, smooth design.

GO-GREEN

Respect for the environment

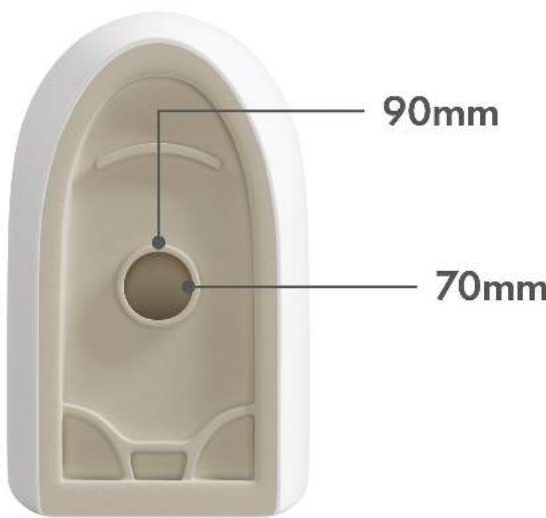

The production facility integrates harmoniously with the place where nature is considered an asset and a heritage to be protected and valued. This desire is manifested in the continuous implementation of new technology that allows using clean energy, and also in the different design options that allow the company to have less impact on the environment.

RIMLESS

The rimless technology ensures quintessential hygiene with effective flushing that offers an efficient solution ensuring that the entire inner surface is rinsed throughout the flushing process.

RIMLESS-DESIGN

TOILET BOWL WITHOUT AN EDGE

The rimless design is standard for all special toilets.
It means that the toilet bowls do not have any difficult-to-reach
places in which dirt and bacteria can accumulate.
This makes it possible to clean the toilet far more quickly, easily
and thoroughly. WATERO has produced rimless toilet bowls.
